Project Title “NESCO 3,4,5,6,7,10,11,13,15,17,&18 Street Lights Retrofit Projects, KSA”

Description “Survey & Installation of Street Lighting Retrofit”

Owner “Tarshid , NESCO”

Overview “Tarshid develops, manages and delivers a comprehensive program to retrofit streetlights across the Kingdom in coordination with the municipalities, ministries and other development authorities. This program aims to decrease the electric consumption of this sector by average (50-60) % as for now it consumed about 10% of the government sector total consumption”

What is a “retrofit”?

A retrofit project consists of implementing energy efficiency measures to reduce a facility’s energy consumption. Investment in energy efficiency measures generates returns through energy bill savings.

Retrofitting :

Replacing inefficient street lights with more efficient lighting systems, such as LED’s.

Quality Policy

EECC certified company and complies with various ISO and international standards to meet contractual and regulatory requirements.

EECC is to deliver products and services to the client in conformance with contract requirements; on time, and free of defect. For this purpose EECC has developed and maintained a Quality Management System (QMS) covering engineering, procurement and construction in accordance with ISO standards. The ISO uses a Quality Manual, Quality System Procedures and Quality Plans document.

EXPERIENCE
EXCELLENCE For Contracting Co.
شركة النخبة المتفوقون للمقاولات

QUALITY POLICY

Quality Manual:

The Quality Manual includes:

- a) Quality Policy, objectives and scope of the QMS.
- b) Documented Procedures and processes for managing our operations and activities are established in the QMS.
- c) Brief description of the interaction between the procedures of the QMS.

Quality System Procedures:

The Quality System Procedures are a compilation of interrelated and interacting procedures written to reflect the management system that we currently use. The corporate quality manual is applicable to all business units. Furthermore, the procedures are drawn out for use in developing the business unit quality plans.

EXPERIENCE

شركة النخبة المتفوقون للمقاولات

QUALITY POLICY

Quality Plan:

In Addition to QMS, EECC develop quality plans specific for each project as per Quality Management: Guidelines for quality and / or environment management systems auditing is carried out to ensure implementation of project plan.

Project quality plans, work instructions and inspection and test plans spell out the requirements of the project and lays down which company procedures are to be used to program and control the works of the project.

SAFETY POLICY

EECC has attained and maintained its position in the market place through commitment to quality in all aspect of its operations. We view safety awareness as a further extension of this total quality management approach.

Effective quality entails attentions to detail and companywide unreserved commitment. Similarly our Safety Policy requires that every employee and official of the company is unreservedly committed to achieving our ultimate Safety Target, with ZERO INCIDENTS. **EECC** will not compromise safety for speedy construction and we insure that every activity associated with our business will be conducted safely, without risk to personnel and properly.

SAFETY POLICY

EECC primary consideration in the evaluation of the success of completed projects is that the projects safety records will reflect ZERO LOST TIME ACCIDENTS.

Incident can be avoided by proper planning preparation, awareness of potential hazards and allocation of competent workers, the use of suitable tools and equipment and heightened safety awareness. Every **EECC** employee, from General Manager to laborer, has a responsibility to ensure that, within his own sphere of responsibility, he does not, under any circumstances, compromise any aspect of the duties or responsibilities which could, in any way, cause of increase to risk of incidents which might result in injury to himself, his colleague or third parties, of damage to Silicon's or third parties assets.

EXPERIENCE

شركة النخبة المتفوقون للمقاولات

SAFETY POLICY

EECC believes in total safety awareness such that each employee fully understand his own safety responsibilities.

EECC recognizes that this can only be achieved by effective safety indoctrination of new employees, ongoing safety training, the continuous assessment and re-evaluation of the effectiveness of our Safety Programs, Plans & Procedures and through the demonstration of the company commitment to safety by the exemplary behavior of all management and supervisory personnel in all aspects of the company's activities.
